

GPJ-P Dome Fiber Optic Splice Closure

Description:

Fiber Optic Splice Closures are made of high density reinforced PC material, can be used for aerial, underground, man-hole, duct and pole.

Speed Optic' s closures can be divided into two series: horizontal type and dome type. As for dome type, according to the sealing ways, including shrinkable dome closure and mechanical dome closure.

Picture:

Characteristics:

1. 4 inlet/outlet ports provided and the amount of heat shrinkable fixing sleeve is additionally ordered to the customers' actual need.
2. The fittings provided: 1pc wrench, aluminum-foil paper, earthing wire, nylon tie, labeling paper and desiccant.
3. Accessories for customers' selection: pressure testing valve, earthing deriving device, branching clip, heat shrinkable fixing sleeves, buffer tube for bunchy fiber and metal hoop.
4. It suits for straight-through fiber cable and branching fiber cable at the same time.

Specifications:

Model	Size (mm) H×D	Core capacity	Cable Port (max)	Max diameter of cable (mm)	Core capacity per tray	Sealing Type
GPJ-P-I (bunchy)	415×190	48	4	3XØ16	12	Shrinkable
GPJ-P-II (ribbon)		96		1XØ25	24
